

## RING SIZE GUIDE

The most reliable method for measuring your ring size is to have it measured at your local Jeweller. In case this is not possible follow the instructions below:

You can print the following chart and measure an existing ring you have, but before you do so, you must check that you print this page 100%. To check if the page prints correctly, please check if the following line measures 5cm.

- Use a ring of your own, (preferably a band no wider than 5mm) that fits on the finger on which you intend to wear the Flux Studio ring you are interested in.
- Position the ring over the circles shown below
- The diameter of your ring should match the diameter of a printed circle
- In case you hesitate between 2 sizes, better choose the larger one
- USA measures: 4 1/2mm - 12 7/8mm | European measures: 48mm-70mm

4 1/2 48	4 5/8 49	5 1/8 50	5 3/8 51	5 7/8 52
6 53	6 1/2 54	7 55	7 1/4 56	7 3/4 57
8 1/4 58	8 5/8 59	9 60	9 3/8 61	10 62
10 5/8 63	11 64	11 1/8 65	11 1/2 66	11 7/8 67
12 1/4 68	12 3/4 69	12 7/8 70
